STUDYING AT THE UNIVERSITY OF LIÈGE
Would you like to study abroad, develop a new specialisation, learn another language, discover a different culture or even add an international dimension to your course?

Whether you hold an undergraduate or postgraduate degree, are interested in a Bachelor’s or Master’s programme in French or in English, or wish to start a doctorate, the University of Liège can offer you a wide range of options. All academic disciplines are covered and combine research at the highest level with outstanding teaching.

Our university teaches over 25,000 students, almost 6,000 of whom are international students. They are looking forward to meeting you and sharing the ULiège experience with you!
ABOUT ULIÈGE*

The University of Liège is the only comprehensive public university in the French-speaking part of Belgium. It has been rooted in the heart of Liège for 200 years and is currently deployed in 3 Walloon provinces, on 4 campuses bringing together 10 Faculties and 1 Management School.

Liège City Centre: our historical campus

Located in the heart of the “Ardent City” and its fast-paced urban life, the Liège downtown campus is the historical part of ULiège. Its central administration as well as three of its Faculties are based here:

▶ Philosophy and Letters
▶ Architecture
▶ HEC Liège, the Management School of the University of Liège

Gembloux campus

Gembloux Agro-Bio Tech is a living laboratory with state-of-the-art facilities for teaching and research. Situated in Gembloux city centre (Namur Province) but within a wooded park, the Faculty specialises in the fields of bioscience engineering, landscape management, agroecology and the foodstuffs of tomorrow.

▶ Gembloux Agro-Bio Tech

Liège Sart Tilman: the green campus

Nesting in a haven of greenery on the heights of Liège, the Sart Tilman campus is a university centre at the cutting edge of progress. It houses most ULiège Faculties, as well as a series of research facilities, a university hospital, a veterinary clinic, a psychology and speech therapy clinic and major sports facilities.

▶ Medicine
▶ Veterinary Medicine
▶ Sciences
▶ Applied Sciences
▶ Law, Political Science and Criminology
▶ Psychology, Speech Therapy and Educational Sciences
▶ Social Sciences

Arlon Environment Campus

Located in the south of Belgium (Luxembourg Province), the Arlon campus is devoted entirely to the study of the environment. The University of Liège chose this spot for its Department of Environmental Sciences and Management, which attracts hundreds of students each year from all over the world.

▶ Department of Environmental Sciences and Management (Faculty of Sciences)

*Figures for 2018-2019

25,421 students forming a vibrant community

23 % international students from 122 countries

1,460 lecturers, assistants and researchers

93,481 ULiège Alumni all over the world

20,961 students forming a vibrant community

1,460 lecturers, assistants and researchers

www.uliege.be/en/campus
WHY CHOOSE ULÎEGE?

1 PROGRAMMES IN EVERY FIELD OF KNOWLEDGE
ULÎège’s range of study options, which are structured according to the 3-5-8 system, is one of the widest in French-speaking Belgium:
- 40 Bachelor’s programmes
- 207 Master’s programmes
- 68 advanced Master’s programmes
- 21 MOOCs, SPOCs (Small Private Online Courses), continuing education courses and PhD programmes in every field
At ULÎège, the opportunities to fulfill your potential are endless! All the more so since new programmes, including several offered in English or leading to dual degrees, are added every year.

2 THE BENEFITS OF A COMPREHENSIVE UNIVERSITY
By their very nature, comprehensive universities add substantial value to the academic and research environment, notably because they foster an interdisciplinary and cross-cutting approach. At ULÎège, we can prepare philosophers to help guide progress in epigenetics, hone budding engineers’ managerial skills and nurture prospective financiers’ interest in ethics, for example. Drawing on the complementary expertise of our Faculties, we organise joint courses, particularly varied programmes, and courses resulting in joint degrees.

3 OUTSTANDING TECHNICAL FACILITIES
- One of the finest heritage libraries in Europe, the largest in Belgium: millions of volumes available for consultation and accessible online
- 3 medical facilities: a University Hospital, a University Veterinary Clinic and a University Psychology and Speech Therapy Clinic
- Internationally renowned research centres and impressive equipment abroad (see p.26)
- 1 science park and 101 spin-offs in operation

4 A CHANCE TO GROW, IN A FLOURISHING ENVIRONMENT
Liège, the Ardent City, is Wallonia’s main urban centre – and it is located a stone’s throw from iconic cities in several European countries.
ULÎège’s warm and cosmopolitan campuses combine the dynamism of city life with the charms of a green environment. ULÎège also provides countless opportunities to develop your interests and hobbies, with 62 sports, 75 student associations, 10 museums, 2 film clubs, 1 university theatre and several art collections being just some of what’s on offer.

5 THE ADVANTAGES OF BEING AT THE HEART OF OUR CONCERNS
- Innovative and increasingly participatory pedagogy
- Many tips for success before, during and after your training
- A university engaged in an ongoing evaluation process that is responsive to the needs of society
- 83% of students hired within 6 months of graduation, 53% within graduation month and 24% before graduation
- The opportunity to develop your potential and make your career unique

6 A RECOGNISED UNIVERSITY
Several ULÎège programmes have obtained accreditations that formally grant not only international recognition of teaching quality (see p.8) but also of the support provided to students. When talking about ULÎège, international students highlight:
- the accessibility and availability of the faculty staff
- the high number of resource persons dedicated to supporting students
- the emphasis on programmes that promote student success
- the buddy programme, which helps them settle in their new study environment
- services devoted entirely to welcoming international students: assistance and support for international students registered for full degree programmes, the Euraxess office for young researchers and the Erasmus office for exchange students
INTERNATIONAL ACCREDITATIONS

ULiège is proud to hold a growing number of international certifications and accreditations. This recognition places it among the Europe’s leading engineering and business schools.

▶ HEC Liège, our Management School, is the only Belgian teaching institution to hold both the EQUIS and the AACSB accreditations.

These accreditations are issued by independent international bodies at the end of a rigorous audit process conducted over several years. They reflect the commitment of ULiège's Business School to educating and supporting its students while conducting research of the highest quality, maintaining close links with alumni and weaving solid ties with the business world.

HEC Liège is also accredited by BSIS, EPMAS and the Conférence des Grandes Écoles and has recently been awarded the “Financial Risk manager” certification by the GARP (Global Association of Risk Professionals) for its Master in Business Engineering, with a specialization in Financial Engineering.

▶ Our engineering and bioscience engineering programmes – respectively offered by the Faculty of Applied Sciences and Gembloux Agro-Bio Tech – have been awarded the EUR-ACE and CTI labels.

Conferred by the European Network for Accreditation of Engineering Education (ENAEE), these labels provide recognition that programmes meet the highest European academic and professional standards and guarantee that students’ degrees will be immediately recognised throughout Europe.

▶ Gembloux Agro-Bio Tech is ISO-certified and is a member of the European Society for Engineering Education (SEFI).

The Faculty’s compliance with the ISO 9001 standard attests to its sustained and ongoing efforts to improve the quality of courses and the support offered to students as regards organisation, timetables, facilities and internships.

UNIÈGE'S INTERNATIONAL NETWORK

The University of Liège is open to the international dimension at every level: student, faculty and administrative staff mobility, joint degrees and Erasmus Mundus European Master’s programmes are all possible. ULiège is part of several networks of European universities (UniGR, Time, SGroup), and it is building and developing solid collaborative initiatives around the world. It has signed agreements for exchanges as a student or as a trainee with more than 900 higher-education institutions in Europe and internationally.

At ULiège, 1 out of every 5 students experiences some form of mobility during their course, and 1 out of every 4 comes from abroad. This cosmopolitan population makes the university an exciting place of learning and connecting with others.

In addition to the Erasmus mobility agreements signed with a growing number of partner universities, the University of Liège is both partner and coordinator of eight programmes of excellence, the joint ERASMUS MUNDUS Masters Courses.

Over 100 joint degree agreements in 27 disciplines enable Master’s students to spend a year at ULiège and a year at one of its partner universities to obtain degrees conferred jointly by the two universities or double Master’s degrees, conferred by both institutions. A key advantage in an international and interuniversity academic programme.

Mobility ranks prominently among the priorities of this network, where ULiège cooperates with partners in Croatia, Finland, Germany, Ireland, the Netherlands, Spain and Turkey. Key activities include student exchanges and joint programmes, as well as the deployment of CityLabs where students, researchers and cities jointly explore crucial themes. UNIC benefits from a three-year grant awarded by the EU in July 2020.

www.unic.eu

UNIC : CONNECTING FOR CHANGE

Empowering students with the knowledge and skills they need to help address the challenges of our time and contributing to a more inclusive society in the process: teaching offers exciting possibilities to accompany complex transitions. ULiège is embracing a new opportunity to advance inclusive education and support social, technological and economic change in the context of UNIC, an alliance of eight universities embedded in post-industrial cities with particularly diverse populations.

www.uliege.be/en/international

www.uliege.be/en/labels

www.unic.eu

Because an international experience is a career must ...
The University of Liège offers Bachelor’s, Master’s and PhD programmes in all academic fields: humanities, natural sciences, technology, engineering and life & health sciences.

### Organisation of the study programmes

<table>
<thead>
<tr>
<th>Cycle</th>
<th>Year 1</th>

<td>180 credits</td>
<td></td>
<td></td>
</tr>
<tr>
<td>(of which 60 dedicated to doctoral training)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Credits (ECTS)

The study programmes are arranged into teaching units (“unités d’enseignement”, or UE). Each UE is assigned a number of credits that represent the workload involved (incl. attendance at class, study at home, practical assignments, tutorials and internships).

1 credit ~ 30 hours of work

A credit is the standard used within the European Credits Transfer System. This international system was set up to facilitate student mobility within the European Higher Education Area.

### Academic year

Programmes are divided into academic years (or “blocks”) of 60 credits.

- 1 year of study = 1 block = 60 credits

In block 1 of the Bachelor’s programme, the curriculum is set for all students. Thereafter, the programme is based on the accumulation of credits, which involves a personalisation of each student’s study path.

### Study cycles

University studies are organised in three cycles:

- Bachelor’s degree (180 credits)
- Master’s degree
- PhD/Doctorate (180 credits: 60 of which for doctoral training)

Most university careers involve two cycles, usually across five years of study.

**MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES**

- Option of joint course or double degree with one or more foreign universities.
  - A joint degree (via the Erasmus+ programme) has been agreed recently between the Université Nice Sophia Antipolis Côte d’Azur and the University of Liège, allowing students to follow one year in each of the partner universities to obtain a joint degree in two years: a master’s in Linguistics with a professional focus on Quantitative and statistical analysis of textual data (ULiège) and a master’s in Letters – specialisation “Linguistics, digital analysis of texts and cognitive processes” (Univ. Côte d’Azur). A unique programme in the French-speaking world of teaching and research!
- Interinstitutional programme: joint course or the option of a joint degree with one or more Belgian universities / higher education institutions.
  - The bachelor’s in Translation and interpreting as well as the master’s degrees in Translation and interpreting are organised in collaboration with the Haute Ecole de la Ville de Liège.
  - Erasmus/Europa exchanges: European and international mobility.
  - No less than 360 options for Erasmus academic exchanges are offered by the Faculty of Philosophy and Letters of Liège (in block 3 of the bachelor’s or during the master’s). Among the prestigious universities for you to discover are: the Humboldt-Universität zu Berlin, the Universitat Pompeu Fabra in Barcelona, the University of Bologna, Warsaw and Edinburgh, without forgetting Tokyo or Montreal as well as around 15 Erasmus Belgica agreements with our partner universities in Flanders.
  - Also on offer: IMACS (International Master in Audiovisual and Cinematographic Studies) programme, which is particularly attractive and brings together a network of 24 European universities (Germany, Spain, France, Italy, the Netherlands, the United Kingdom, Sweden), one Brazilian university and one Canadian university, allowing students in the master’s in performing arts at ULiège to spend two semesters of their master’s in one of the 15 partner universities.

ADVANCED MASTER’S - 60 ECTS

University and higher education pedagogy Risk management and professional well-being

MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES

- Interinstitutional programme: joint course or the option of a joint degree with one or more Belgian universities/higher education institutions.
- The programme of the advanced master’s in Risk management and professional well-being is organised in collaboration with the Psychology and Education Science Faculties of UMONS, UCLouvain, the ULB and ULiège (coordinating institution).
- The Faculty also offers:
  - Advanced Master’s in Heritage Conservation and restoration jointly organized with ULB, UMONS, UNamur, Haute Ecole Charlemagne and UCLouvain (coordinating partner).

Erasmus/Erasmus + exchanges: European and international mobility.

- Exchange visits for speech therapy students take place, logically, more in French-speaking universities, including Quebec. Nevertheless, other destinations are offered, for example in Spain and in Malta. For students of Psychology and Education sciences, there are numerous agreements with institutions in southern Europe (France, Spain, Italy) as well as in Austria, Germany, Poland and Romania. These visits take place in the first or second semester of block 3 of the bachelor’s and can last 5 or 10 months, according to the agreement in place.

The Faculty also offers:
- Advanced Master’s in Heritage Conservation and restoration jointly organized with ULB, UMONS, UNamur, Haute Ecole Charlemagne and UCLouvain (coordinating partner).

Erasmus/Erasmus + exchanges: European and international mobility.

- The architectural heritage of Madrid, Paris, Riga, Rome, Stuttgart, Vienna, Kyoto, Quebec and dozens more iconic European cities will have no secrets for you after an academic exchange during your Architecture studies. This exchange takes place at the end of the bachelor’s or during the first block of the master’s.

MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES
- Option of joint course or double degree with one or more foreign universities.
- There is an option of a joint bachelor's degree in Economics and management with the University of Heidelberg (Germany). A joint degree with Strasbourg (France) will be launched from September 2021.
- Eight joint degrees are offered within the master's in Management. Among the seven partner institutions are: Saarland University of France, the University of Oulu in Finland or Duisburg-Essen University of Germany. Four joint degree programmes are offered as part of the master's in Economics, in partnership with universities in Germany, Ireland and Hungary.
- One joint degree programme is offered for the master's in Business engineering with the University of Oulu.
- Cross-disciplinary programmes: pathway to obtain two ULiège master's degrees in three years.
- HEC proposes four cross-disciplinary programmes:
  - Law Management (Faculty of Law, Political Science and Criminology of the University of Liège and HEC Liège); Management and legal skills;
  - Industrial & Business Engineering (Hoges Gramm & HEC Liège); management, technology and scientific skills;
  - Digital Business (Faculty of Applied Sciences of the University of Liège & HEC Liège); management and IT skills;
  - Management of organisations systems in transition (MOSIT) (Faculty of Social Sciences of the University of Liège and HEC Liège); management and social sciences skills.
- Interinstitutional programme: joint course or the option of a joint degree with one or more Belgian universities/higher education institutions.
- The work-study programme for an master's in Sales management, a unique programme in French-speaking Belgium, is organised jointly by ULiège (coordinating institution) and four higher education institutions in the Wallonia-Brussels Federation (HEGis, Haute École de la Province de Liège (HEPL), Haute École de Humanités-Luxembourg (HOMALUX) and ESA). Erasmus/Erasmus+ exchanges: European and international mobility.

The Faculty of Applied Sciences also offers:
- Advanced master's in Nuclear engineering - joint diplomas with UCLouvain (coordinating institution) and seven other partner institutions in Europe: ENSAM (France), Technical University of Delft (Netherlands), Technical University of Braunschweig, University of Padua, Technical University of Copenhagen, Technical University of Berlin and Technical University of Graz.
- European and international mobility.

www.programmes.uliege.be/en

MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES
- Option of joint course or double degree with one or more foreign universities.
- Joint degrees are offered in numerous master's programmes, notably in Italy with the Universities of Bologna and Genoa, in France with the Ecole des Mines of Paris and ENST Bretagne, in Spain with the Technical University of Madrid and within an impressive range of universities, from Norway to Germany, passing through France or Spain.
- The TIME (Top Industrial Managers in Europe) network consists of 40 engineering schools that take part in student exchanges that allow the award of a second master's degree with extension of studies by one year.
- Meanwhile, the THIRIUS (aerospace engineering) welcomes students to Thales Alenia and/or Stockholm.
- Cross-disciplinary programmes: pathway to obtain two ULiège master's degrees in three years.
- The Digital Business programme: organised in collaboration with HEC Liège makes it possible to obtain the master's degree in three years: a master’s in Computer science or in Computer science and engineering and a master’s in Business engineering with a focus on Digital business.
- Erasmus/Erasmus+ exchanges: European and international mobility.
- More than 200 partner institutions welcome you in more than 20 countries for Erasmus exchanges. The Erasmus exchange can be organised at the end of the bachelor’s as well as during the master’s.
- Two Erasmus Mundus programmes are also offered, in partnership with six partner institutions in Europe: EMERALD (Master’s programme in Resource Engineering - France/Germany/Sweden), and the EMUSHIP programme - (Advanced ship design - France/Germany/Spain).
- Financial risk management (evening lessons)

### MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES

- Option of joint course or double degree with one or more foreign universities.
- A joint degree is offered with AgroParisTech and Montpellier SupAgro for all specialisations in the Bioscience engineering stream. There is also an agreement for the Food and nature management focus with the Technical University of Madrid. A joint degree has been organised with AgroParisTech and Paris-Saclay for the Master’s in Agroecology.
- Interinstitutional programme: joint course or the option of a joint degree with one or more Belgian universities higher-education institutions.

**ERASMUS/ERASMUS+ exchanges: European and international mobility.**

- An Erasmus Mundus Bioceb - European Master in Biological and Chemical Engineering for a Sustainable Bioeconomy - programme has been launched at Gembloux and is open to Belgian and international students. It allows particularly prestigious mobility in France, Finland or Estonia, supported by attractive funding from the European Union.
- Almost 10 academic exchange options of 5 to 10 months are offered in Europe and beyond – Canada, Japan, Brazil and South Africa are among the partners, along with Vienna, Paris, Madrid, Turin or Edinburgh and Prague.

**90 academic exchange options**

**5 to 10 months**

**ERASMUS/ERASMUS+ exchanges: European and international mobility.**

- An Erasmus Mundus Bioceb - European Master in Biological and Chemical Engineering for a Sustainable Bioeconomy - programme has been launched at Gembloux and is open to Belgian and international students. It allows particularly prestigious mobility in France, Finland or Estonia, supported by attractive funding from the European Union.
- Almost 10 academic exchange options of 5 to 10 months are offered in Europe and beyond – Canada, Japan, Brazil and South Africa are among the partners, along with Vienna, Paris, Madrid, Turin or Edinburgh and Prague.

**To give just a few examples:**

- **Agricultural sciences**
  - Agroecology: Degree awarded jointly by the ULB, the Haute École Charlemagne and ULiège (coordinating institution).
  - Forest and nature-management focus: Degree awarded jointly with AgroParisTech and Montpellier SupAgro for the joint degree.

- **Bioscience engineering**
  - Chemical Engineering for a Sustainable Bioeconomy - programme has been launched at Gembloux and is open to Belgian and international students. It allows particularly prestigious mobility in France, Finland or Estonia, supported by attractive funding from the European Union.
  - Almost 10 academic exchange options of 5 to 10 months are offered in Europe and beyond – Canada, Japan, Brazil and South Africa are among the partners, along with Vienna, Paris, Madrid, Turin or Edinburgh and Prague.

**To give just a few examples:**

- **Agricultural sciences**
  - Agroecology: Degree awarded jointly by the ULB, the Haute École Charlemagne and ULiège (coordinating institution).
  - Forest and nature-management focus: Degree awarded jointly with AgroParisTech and Montpellier SupAgro for the joint degree.

- **Bioscience engineering**
  - Chemical Engineering for a Sustainable Bioeconomy - programme has been launched at Gembloux and is open to Belgian and international students. It allows particularly prestigious mobility in France, Finland or Estonia, supported by attractive funding from the European Union.
  - Almost 10 academic exchange options of 5 to 10 months are offered in Europe and beyond – Canada, Japan, Brazil and South Africa are among the partners, along with Vienna, Paris, Madrid, Turin or Edinburgh and Prague.
MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES

- Option of joint course or double degree with one or more foreign universities.

- The Master’s in Sociology with professional focus on Immigration studies provides a joint degree option, without extension of the course, with the Universitat Pompeu Fabra of Barcelona. A master’s in Sociology with a focus on Immigration Studies (ULiège) and a master’s in Migration studies (UPF).

- The master’s in Anthropology provides a European course within the Erasmus Mundus programme: a European scientific network that allows mobility of teaching and researchers and students between nine partner institutions in France, Belgium, Sweden and Denmark.

- The Faculty of Sciences also offers:
  - Three prestigious Erasmus Mundus programmes: FAME (Functionalised Advanced Materials and Engineering - Physics and Chemistry), MER (European Master in Marine Environment and Resources - Oceanography) and MER+ (European Master in Marine Environment and Resources - Oceanography).
  - 176 bilateral agreements with 120 partner institutions in Europe and outside Europe: from Korea to the United States, passing through Romania, Finland, France and Portugal as well as Italy and Spain, which both account for more than 60 agreements for academic exchanges of 5 to 10 months.
MOBILITY SPOTLIGHT: INTERNATIONAL AND INTERDISCIPLINARY PROGRAMMES

- Interinstitutional programme: joint course or the option of a joint degree with one or more Belgian universities/higher-education institutions.
- Erasmus/Erasmus+ exchanges: European and international mobility.
- Almost 100 mobility agreements offering academic exchange options nearly everywhere in Europe (Spain, Italy, Poland, Romania, Germany, etc.) as well as outside Europe (Canada, Argentina, Japan, Taiwan).

FACULTY OF MEDICINE

MEDICINE • DENTISTRY • BIOMEDICINE • PHARMACY • MOTOR SCIENCES • PUBLIC HEALTH

1st CYCLE - BACHELOR’S

180 ECTS

Medicine
Dentistry
Biomedicine
Pharmacy
Motor sciences
Physiotherapy and rehabilitation

2nd CYCLE - MASTER’S

120 ECTS

Biomedicine

120 ECTS

Pharmacy

180 ECTS

Advanced master's 5 - Go to 360 ECTS

Medicine specialisations
Dentistry specialisations

The Faculty of Medicine also offers:
- Advanced master's in Dermopharmacy and cosmetology
- Bachelor in Dental hygiene expert - jointly organised with Haute École de la Province de Liège (coordinating institution)

Erasmus/Erasmus+ exchanges: European and international mobility.
- Almost 100 mobility agreements for academic exchanges, particularly in pharmacy, biomedicine and physiotherapy, in France, Portugal, Italy, Spain, Brazil, Canada, etc.

Public health

1st CYCLE - BACHELOR’S

120 ECTS

Medicine
Veterinary medicine
Pharmacy
Physiotherapy and rehabilitation

2nd CYCLE - MASTER’S

180 ECTS

Veterinary medicine

Advanced master’s - 60 ECTS

Veterinary sciences: Clinical internship (pets, equid, ruminants, exotic pets)

Specialised veterinary medicine (Veterinary public health)

The integrated management of health risks in the Global South

* A revision of the master's in Public health is underway and will impact the focuses.

Research at ULiège

Practical information

Connect with us
TRAPPIST-1 is one of the nearest systems with potentially habitable terrestrial exoplanets. It was discovered using the TRAPPIST-South telescope and revealed to the public in August 2017 by NASA.

The University of Liège is active in the following main research areas:

- **Arts & Letters**
- **Biomass**
- **Biotechnology**
- **Climate and Environment**
- **Economics and Management**
- **Energy**
- **Food**
- **Health**
- **Manufacturing and Transformation**
- **Nanotechnology**
- **Resources and Materials**
- **Society**
- **Soil and Water**
- **Space**
- **Transport and Logistics**

ULiège is active in the following main research areas:

- More than 3,000 researchers are engaged in top-level research at the University of Liège.
- Nearly 2,000 agreements, representing a total budget of 270 million euros, are opening the way to new advances in every academic field.
- More than 100 functioning spin-offs have been created as a result of work carried out within our 40 research units.

The University of Liège fosters and promotes excellent multidisciplinary research that is directly in line with its teaching, both on its campuses in Belgium, and abroad at research centres based in Europe and beyond. Your life as a researcher or doctoral candidate will match your creativity and your passion!

www.uliege.be/en/research
A Doctorate is an outstanding opportunity to develop expertise and start a research career. Researchers learn about research by conducting research. More than 2,000 doctoral theses, in every field, are currently under way at the University of Liège. Encompassing activities as varied as experiments and project management, international exposure, seminars and scientific publications along with the latest developments in the state of the art, each doctoral candidate’s path is unique, innovative and exciting.

The University of Liège is committed to enabling each doctoral candidate to prepare his or her thesis under the best possible conditions, which it has formally undertaken to do by signing the European Charter for Researchers. We provide our doctoral candidates with comprehensive support, including mobility funding, supervision, doctoral schools and research advice.

CUPPD - A PhD PREPARATORY TRAINING PROGRAMME

Students interested in a Doctorate may also apply for a 12-week preliminary programme in order to refine their approach and their project before starting the doctoral programme itself. Courses leading to a university certificate are offered in English and in French, in the autumn and spring terms.

GOOD TO KNOW

▶ Knowledge of French is not necessary to begin a doctorate at ULiège.

▶ ULiège has been awarded the HR Excellence in Research, which recognises the quality of its support, information and working conditions for Belgian and international researchers.

▶ GIGA doctoral school offers scholarships for prospective PhDs for Health Sciences keen to conduct fundamental or applied biomedical research – www.gigadoctoralschool.uliege.be

▶ Common sources of funding are found in assistantship programs, grants from the FNRS and associated funds such as FRIA and FRESH or from professor’s own research projects.
There are many great things here, including some very beautiful places I had the pleasure to discover. I love the city’s cuisine, but what I like best are the people and the atmosphere. The people here are very friendly and kind and very supportive of my research. Most Liège residents speak English, which is very convenient.

Anoop Nautiyal
India – Post-doctoral fellow
NANOCHEM Lab – Nanochemistry & Molecular Systems – Faculty of Sciences

Liège is a city on a human scale that is located in a multilingual country and in close proximity to Germany, Luxembourg, and the Netherlands. It is conveniently located an hour’s drive from Brussels and boasts a history that goes back to the 6th century.

The ‘Ardent City’ enjoys a cultural life that is growing year by year: exceptional museums, a large network of cinemas, concert halls, the Opera and internationally renowned theatres are just some of what it has to offer.

Liège is also the second-largest French-speaking city in Belgium. It is the perfect place to learn French, and the University of Liège does all it can to introduce you to its language and culture. (Many different options for learning French are available, see p 34.)

Student life at the University of Liège is truly ideal! Via its many sports groups (70 different sports are on offer!), its theatre company, the 160 university clubs and student associations as well as many other options, you will always find a way to develop your talents.

ULiège campuses are great places to work, live and relax, offering students optimal facilities that include housing, restaurants, libraries, high-quality Wi-Fi and easy parking.

A variety of services are available to help students succeed. This support includes practical assistance for international students, from their initial visa application to the awarding of the degree. ULiège attaches prime importance to welcoming and integrating students from abroad. A buddy programme, meet-ups and themed visits – everything is done to make newcomers to Belgium feel at home.

www.uliege.be/en/welcome
**1ST CYCLE - BACHELOR’S PROGRAMMES**

1. **QUALIFICATIONS REQUIRED**
   - CESS Belgian certificate of higher secondary education
   - OR EQUIVALENT DIPLOMA
   - OR European Baccalaureate issued on behalf of the Board of Governors of the European Schools
   - OR International Baccalaureate (IB) / see www.ibo.org/about-the-
   - OR Successful jury assessment process including admissions test – with

2. **ONLINE REGISTRATION**
   - Deadlines:
     - end of April - for non EU students
     - end of September - for EU students
   - Online forms available as of July

3. **PREPARATORY ACTIVITIES**
   - Throughout the year / in summer - www.uliege.be/en/preparation

4. **START OF THE ACADEMIC YEAR**
   - Mid September

**ADDITIONAL STEPS TOWARDS ADMISSION FOR MEDICINE AND DENTISTRY**

- These programmes involve an admissions test.

1. **ADMISSIONS TEST**
   - Organised twice per year in Brussels by ARES – www.facmed.uliege.be/admission
     - Registration closes +/- 1 month before the examination
     - 1st session: early July - 2nd session: late August – registration opens usually in May

2. **ONLINE REGISTRATION**
   - Upon receipt of the certificate of equivalence and announcement of the results of the admissions test

**ADDITIONAL STEPS TOWARDS ADMISSION FOR VETERINARY MEDICINE**

1. **ADMISSIONS TEST**
   - Applications for inclusion in the draw to be submitted by the candidates in person
   - Online booking of appointments from June - www.uliege.be/en/quotas
   - Submission of applications by the candidates usually from 20 to 23 August
     - Outcomes of the draw announced online in early September – 20 % quota for non-resident students

2. **ONLINE REGISTRATION**
   - Upon receipt of the certificate of equivalence and announcement of the results of the draw
     - NB: Online enrolment required within 1 week - www.uliege.be/en/enrol

**ADDITIONAL STEPS TOWARDS ADMISSION FOR SPEECH THERAPY AND PHYSIOTHERAPY**

1. **ADMISSIONS TEST**
   - Applications for inclusion in the draw to be submitted by the candidates in person
   - Online booking of appointments from June - www.uliege.be/en/quotas
   - Submission of applications by the candidates usually around 20 to 23 August
     - Outcomes of the draw announced online in early September – 30 % quota for non-resident students

2. **ONLINE REGISTRATION**
   - Upon receipt of the certificate of equivalence and announcement of the results of the draw
     - NB: Online enrolment required within 1 week - www.uliege.be/en/enrol

**ADDITIONAL STEPS TOWARDS ADMISSION FOR CIVIL ENGINEERING & ARCHITECTURAL ENGINEERING**

1. **MATHEMATICS ADMISSIONS TEST**
   - Two sessions organised by ULiège – www.facsa.uliege.be/admission
     - 1st session: early July - 2nd session: early September
     - Registration closes 1 week before the examination
     - Optional practice test (simulation), usually in April

2. **ONLINE REGISTRATION**
   - Upon receipt of the certificate of equivalence and announcement of the results of the admissions test –

**HOW TO APPLY**

1. **Entry requirements**
   - Requirements for students at the University of Liège are defined for each level of study as well as for each student profile – see pp 31-33.

2. **Registration fees**
   - (for 2020-2021)
     - EU students: €835
     - Non-EU students: €4175
   - In some cases, NON EU students may qualify for registration at the same rate as EU students - See www.education.uliege.be/dm

3. **Organisation of the academic year**
   - www.uliege.be/enrol
2ND CYCLE - MASTER’S OR ADVANCED MASTER’S PROGRAMMES

REQUIREMENTS

► To enrol in a MASTER’S PROGRAMME:
  1st cycle (Bachelor’s) degree / 180 credits required

► To enrol in an ADVANCED MASTER’S PROGRAMME:
  2nd cycle (Master’s) degree / 300 credits required

For complete information on entry requirements and enrolment: www.education.uliege.be/en/enrol

PROCESS

Applications considered in the light of the academic record to be provided online by candidates whose diplomas were not issued in Belgium – decision announced within 30 days from submission of complete request.

For successful applications: permission to enrol sent to eligible students by email (or by post, for candidates in non-EU countries), authorising them to complete the actual registration process.

REQUIRED LANGUAGE PROFICIENCY LEVEL: B2

In the teaching language of the selected programme – French or English, as applicable

Exceptions:
  ● C2 level in French required for programmes in Translation and Interpreting
  ● C1 level required in the languages selected for the Master’s in multilingual communication
  ● C1 level in French required for Master’s programmes with a teaching focus

Selection procedures apply for a number of programmes – more information available from the Faculty Student Offices or via study@uliege.be

TIMELINE

February  Online applications open
30 April   Deadline for applications by post, for students from non-EU countries
31 August  Deadline for online applications, for EU students
September  Orientation days for all new students
Mid September  Beginning of the academic year
Mid October  Welcome evening for international students

3RD CYCLE - DOCTORATE

REQUIREMENTS

• Second-cycle university degree obtained after 5 years of study, covering at least 300 credits and reflecting a grade of at least 14/20 throughout the second study cycle.

• Research project, confirmed funding, written agreement of a doctoral supervisor

• To find potential supervisors: keyword search on https://orbi.uliege.be or www.belspo.be/belspo/invent/intro_en.stm to pinpoint current research in the relevant area

More info: www.recherche.uliege.be/en/PhD

TIMELINE

YEAR 1  YEAR 2  YEAR 3  CONTINUATION

CROSS-DISCIPLINARY TRAINING PROGRAMME
  including participation in colloquia and foreign research trips

THEMATIC TRAINING

SCIENTIFIC OUTPUT AND THESIS DEFENCE
Interested in a programme taught in English, and looking to also learn French?

▶ Summer classes before you start: 2 courses of 3 weeks each in July or August – 45 hrs language training and 15 hrs of cultural activities (€ 750/course)
▶ A week of intensive classes (45 hrs of language) in September before classes begin (€ 100/week)
▶ Online courses: 2 cycles of 10 weeks – 4 different levels – 31 euros/cycle for ULiège students
▶ Evening classes: 2 cycles of 60 hours – 2 two-hour sessions/week (€ 100/cycle)

Programmes may be offered upon request, please ask for more information about this optional additional year

islvfr@uliege.be

www.islv.uliege.be
The breakdown of living expenses is intended as a guide, as your expenses will differ depending on your lifestyle and how you decide to spend your leisure time. The estimated annual living expenses in Liège are between €8,000 and €13,000, including tuition fees (see p 30).

- **Food**: €10/day
- **Accommodation (average)**: €350/month
- **Transportation**: €12/month
- **Internet connection @home**: €35/month
- **Books**: €350/year
- **Sports**: €35 to €70/year

### LIVING EXPENSES

The estimated annual living expenses in Liège are between €8,000 and €13,000, including tuition fees (see p 30).

### FINDING ACCOMMODATION

#### In Liège

**At the university residence on the Sart Tilman campus**

The rental period for rooms in residence covers the 10 months of the academic year (September to end of June). Priority is given to students who are registering at the University for the first time and are in the first year of the Bachelor’s programme. Rent is calculated based on the taxable income of parents and the student’s family’s expenses (from €223 to €330, per month, including facilities – 2020-2021 prices).

**Through a private landlord**

In Belgium, individual student rooms are known as “kots”. There are over 7,000 in the city as well as around the Sart Tilman campus. Prices are reasonable and there is a wide variety of options. Other types of accommodation such as studio apartments, flats or small houses can also be rented at affordable prices. The University of Liège’s Accommodation Service maintains a database of private rentals in Liège. This database can be consulted online. The service can also advise and assist future tenants in their search.

#### In Arlon

There are several options for accommodation in Arlon, on the Environment Campus and across the surrounding region - such as shared houses in the town.

#### In Gembloux

The University buildings as well as most of the accommodation are very close together, making it easy to get around without a vehicle. There are two types of accommodation: at the University or in town with a private landlord.

**www.uliege.be/en/accomodation**
Our team is at your disposal all year round and currently offers you the following services at your best convenience:
• Individual appointment by phone
• Individual online appointment by videoconference
• By email via our contact form

We will answer you and/or schedule appointment as soon as possible!
