Enrolment conditions for the 2023–2024 academic year.

1. Applicants must submit their request for admission on line between 15 February 2023 and 31 March 2023.
2. Applicants must submit their application themselves (no intermediaries).
3. Applicants must complete and sign the certificate of acknowledgement of the measures taken by ULiège to combat matriculation fraud.
4. Applicants may only submit one application per academic year. It should be noted that the Jury may, if it considers it appropriate, make a counter-offer to a student in the event of being refused for their chosen course.
5. (For students requesting admission to the undergraduate cycle). Applicants must, on 31 March 2023, hold a qualification making them eligible for access to the Bachelor’s course in question.
6. Applicants must have the required linguistic skills. They must provide evidence that they hold B2 level in the teaching language of the course in question. Due to numerous false and inadmissible documents being received, only the tests listed on the ULiège website will be accepted.
7. Applicants must pay a fee of €200. In the event of matriculation, this will be deducted from the matriculation fees.
8. Applicants must provide the University with a funding plan.

Note: students who are admitted to matriculate at ULiège may make a deposit into a “blocked” account held by ULiège. This deposit is proof of means of subsistence which has been accepted by the Office des Étrangers and should remove a significant barrier to obtaining a visa for many students.

Exemptions

For 2023–2024, the conditions set out above apply to all students who are nationals of a country outside the European Union, except:

- “assimilated” students (e.g. refugees and asylum seekers);
- students holding a Belgian Secondary School education certificate;
- students holding a qualification from a higher education institution in the Wallonia-Brussels Federation (specific case for students not covered by the “Passerelles” decree: no accumulation of qualifications or matriculation for a qualification which is lower than that already obtained);

- students who apply to enrol for an undergraduate course which is subject to selection under application of the “non-residents” decree (veterinary science, physiotherapy, speech therapy, medicine and dental sciences);

- students who hold regular residency in Belgium and taking the engineering course examination;

- students who wish to enrol on the basis of a recent qualification – from one or two years preceding the current academic year – obtained in a European Union country outside the Wallonia-Brussels Federation.
